

Locally Produced Programs on WCNP

WCNP encourages opportunities for area citizens to be involved in production and broadcasting. Locally produced programs will meet the following guidelines:

1. All music played must be in harmony with WCNP's music policy.
2. A standard of excellence in broadcasting production and quality compatible with WCNP's programming policies and vision will be maintained.
3. Programming will be consistent with WCNP's non-profit, educational non-commercial broadcast station authorization from the Federal Communications Commission.
4. Ordinarily, locally produced programs will be prerecorded and scheduled for a later broadcast.
5. Local programming will be subject to regular critique, review and suggestions from WCNP's board.
